ENERGY - WATER - SEWAGE TREATMENT TECHNOLOGY

Equipment Description

Designed by Ptech GmbH, Spiral Conveyor is used in wastewater treatment plant applications. The design primarily consists of a conveyor screw mounted on a fixed trough. Sludge and similar materials are transported into the trough by the rotation of the screw. Inlets, outlets, and other accessories guide the flow and discharge of materials.

Advantages and Features

- Overhang lengths up to 20 meters and more
- Low speed. Transport of solid materials or products to solid waste containers without jamming or clogging
- Completely covered top provides an equipment without pollution

Areas of Use

- Municipal Wastewater Treatment Plants
- Industrial Wastewater Treatment Plants
- Food & Beverage Industry
- Pulp & Paper Industry
- Slaughterhouses
- Solid Wase Processing Facilities
- Recycling Facilities
